

## WKK cable tie installation tool

The ultimate tool for attaching cable ties

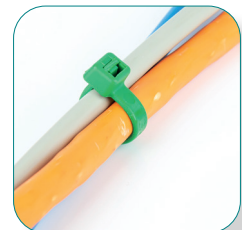

The WKK cable tie tool helps you to attach many cable ties in an easy and reliable way.

### Work more efficient and safe

The low weight and the ergonomical designed grip causes the tool sits comfortable in your hand. In addition to make work easier, the installation tool also cuts cable ties neatly, directly on the cable tie head. Sharp and protruding edges are things of the past. This way your cables are protected against damage and you avoid the risk of injury.

### Ergonomic and smart design

The WKK installation tool is suitable for nylon cable ties with a minimum width of 2.5 mm and a maximum width of 4.8 mm. There is a tension knob on the tool. The knob can be used to set the tension strength. The tension strength of the tool is adjustable from 80 N up to 222 N. Each tool comes standard with a spare blade and one screwdriver for replacing the blade. The screwdriver and the spare blade are conveniently stored in the tool itself.

### Tension settings

Settings on tool	1-2	3-4	5-8
Cable tie type	Small	Medium	Standard
Cable tie width	2.5 mm	3.6 mm	4.8 mm
Tension strength cable tie *	80 N/8 kg	180 N/18,2 kg	222 N/22,2 kg

\* Look for the correct tension strength on the relevant page of the cable tie (type) in our catalogue or on our website
